

DTS NDM to Connect:Direct Secure+ Checklist

To your organization's primary contact: Please complete the following to help facilitate your transition to the Connect:Direct Secure+ platform.

- ▶ **Tell us how to reach you.** Please e-mail us your name, company name, and phone number, along with the best time of day to reach you. Also include the same information for one or more back-up contacts. We'll reply to your message so you know we received it. To ensure your message is forwarded to your transmission conversion specialist, please send your e-mail to the address below and include the following subject line:
 - To: **MigrationServices@wellsfargo.com**
 - Subject: **Wachovia NDM to Connect:Direct Secure+**
- ▶ **Determine if your organization is running a supported version of Connect:Direct software.** The *Wells Fargo*® Secure Proxy service requires that your organization runs a supported version of Connect:Direct (NDM) software, which includes Secure+. Below is Sterling Commerce's current list of minimum supported versions:

<u>Operating System</u>	<u>Minimum supported version of Connect:Direct with Secure+</u>
z/OS (zSeries, OS/390)	4.6.00
UNIX (All supported UNIX platforms)	3.8.00
i5/OS (OS/400)	3.5.00
Windows XP Professional, Server 2003, Vista	4.2.00
GIS	4.2.00

- ▶ **Determine your software version.** Depending on your operating system, follow these steps to determine your software version:
 - **For Unix:** Run `/INSTALLDIR/ndm/etc/cdver`
 - **For Windows:** Open the CD Admin Tool and note the version to the right of the node name, including any Build xxx information
- ▶ **Upgrade if your current Connect:Direct software is not supported.** Your transmission conversion specialist will call you to verify your software version. If your current version is not supported, your specialist will provide information about upgrading your software.
